TUGAS 5

Membuat Halaman Management Siswa

1. Membuat siswa_model.php pada app->models

2. Tambahkan source code seperti berikut untuk mengambil semua data siswa yang ada pada database

```
3. <?php
4.
5. namespace App\Models;
6.
7. use CodeIgniter\Model;
8.
9. class siswa_model extends Model
10.{
11.     protected $table = 'siswa';
12.
13.     public function getSiswa()
14.     {
15.         return $this->db->table('siswa')
16.             ->join('kelas', 'siswa.id_kelas = kelas.id_kelas')
17.             ->get()->getResultArray();
18.     }
19.}
```

3. pada app/Controller buat file bernama siswa.php

4. tambahkan source code seperti berikut :

```
<?php
namespace App\Controllers;
```

```

use CodeIgniter\Controller;
use App\Models\siswa_model;

class siswa extends BaseController
{
    public function index()
    {
        # code...
        $model = new siswa_model();
        $data['siswa'] = $model->getSiswa();
        echo view('siswa/index',$data);
    }

    public function create()
    {
        # code...
        return view('siswa/create');
    }
}
?>

```

5. pada app->view->siswa buat file dengan nama index.php

6. tambahkan source code seperti berikut untuk tampilan pada halaman management siswa.

```

<<?php echo view('partials/header') ?> <<?php echo view('partials/sidebar') ?>
<div class="page-wrapper">
    <div class="content container-fluid">
        <div class="page-header">
            <div class="row">
                <div class="col-sm-12">
                    <div class="page-sub-header">
                        <h3 class="page-title">Management Siswa</h3>
                        <ul class="breadcrumb">
                            <li class="breadcrumb-item"><a href="<?php echo
base_url('/'); ?>">Home</a></li>

```

```

        <li class="breadcrumb-item active">Management
Siswa</li>
    </ul>
</div>
</div>
</div>
</div>
</div>

<div class="student-group-form">
    <div class="row">
        <div class="col-lg-3 col-md-6">
            <div class="form-group">
                <input type="text" class="form-control"
placeholder="Search by NIS ...">
            </div>
        </div>
        <div class="col-lg-3 col-md-6">
            <div class="form-group">
                <input type="text" class="form-control"
placeholder="Search by Nama ...">
            </div>
        </div>
        <div class="col-lg-4 col-md-6">
            <div class="form-group">
                <input type="text" class="form-control"
placeholder="Search by Kelas ...">
            </div>
        </div>
        <div class="col-lg-2">
            <div class="search-student-btn">
                <button type="btn" class="btn btn-
primary">Search</button>
            </div>
        </div>
    </div>
</div>
<div class="row">
    <div class="col-sm-12">
        <div class="card card-table comman-shadow">
            <div class="card-body">

                <div class="page-header">
                    <div class="row align-items-center">
                        <div class="col">
                            <h3 class="page-title">Students</h3>
                        </div>
                        <div class="col-auto text-end float-end ms-
auto download-grp">

```

```

                <a href="<?php echo
base_url('siswa/create'); ?>" class="btn btn-outline-primary me-2"><i
class="fas fa-plus"></i> Tambah</a>

            </div>
        </div>
    </div>

    <div class="table-responsive">
        <table class="table border-0 star-student table-
hover table-center mb-0 datatable table-striped">
            <thead class="student-thread">
                <tr>
                    <th>No</th>
                    <th>NIS</th>
                    <th>Nama</th>
                    <th>Tempat, tanggal Lahir</th>
                    <th>Jenis Kelamin</th>
                    <th>Agama</th>
                    <th>Alamat</th>
                    <th>Kelas dan Jurusan</th>
                    <th>No Hp</th>
